**SECOND REQUEST FOR CORRECTED FILING RECEIPT**

**Via Facsimile 703-746-9195**

Commissioner for Patents  
Office of Initial Patent Examination

Dear Sir:

Dear Sir:

Attached is a copy of the Corrected Filing Receipt received from the PTO in the above application (Exhibit A). The Corrected Filing Receipt was issued in response to Applicant's Request for Corrected Filing Receipt, filed on December 3, 2004, to correct the presence two errors: an error in the Assignee's name and an error in the filing date. The error concerning the Assignee's name was corrected. The error in the filing date was not corrected.

As stated in Applicant's first Request for Corrected Filing Receipt, Applicant's Utility Patent Application Transmittal sheet, Declaration, Assignment, Nonpublication Request (which has been rescinded) all show that these papers were signed on August 25, 2003. The papers were then placed in the U.S. Post Office's Express Mail on that same day as shown by the date of the sales receipt attached hereto as Exhibit B. The Corrected Filing Receipt, however,

continues to show a filing date of August 23, 2003, fully two days before the papers were signed, apparently in response to the date on the Express Mail receipt (attached hereto as Exhibit C) that was incorrectly filled in by a Post Office employee. Additionally, it should be noted that August 23, 2003, was a Saturday, and the Post Office Branch where the papers were mailed is not open on Saturday.

Therefore, it is again respectfully requested that the filing date on the filing receipt be corrected to show that the application was filed on August 25, 2003.

If there are any questions concerning this request, please contact the undersigned at the number listed below. We do not believe that this request involves the payment of a fee. However, the Commissioner is hereby authorized to charge any fee which may be required in connection with this request to the Deposit Account No. 19-2112. A duplicate copy of this is paper is enclosed. Thank you for your prompt attention.

Respectfully submitted,

Christopher J. Eaton

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

---

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
